

## High Definition Offset Machine

# 150-10X15

Inspiration • Innovation • Satisfaction

Our work policy is on based on three simple words

"ROMCO" 150 is a compact, high productivity Printing Machine that can be used in Letter Press Houses, DTP units, large Xerox (Photocopies) and Screen Printing Houses as well as small Enterprises. It is ideal for short-run jobs. Even novices with minimal training, can operate the machine with ease.

It can print using both Poly Master as well as Plate. All the bearings fitted in the machine are of standard brands. Body cover are powder coated, giving its elegant look.

150-10X15

PARTICULARS	SPECIFICATION
Dimensions	66"L x 34"W x 57"
Weight	700 Kg.
Power Requirements	200-240 AC
Maximum Paper Size	10.75"W x 15.0"L
Minimum Paper Size	5"W x 7"L
Maximum Image Area	10.25"W x 14.5"L
Paper Weights	30-300 GSM
Blanket Thickness	1.9 mm (4 Ply Rubber Blanket)
Blanket Size	11.25" x 18.5"
Plate Size	11" x 16.5"
Gripper Margin on Paper	8 mm
Gripper Margin Plate	1.25"
Feeding System	Suction Feeding
Ink Rollers	12 Ink Roller, Includes: 3 Oscillators, 2 Form Rollers
Dampening Rollers	5 Rollers, Include: 1 Oscillators, 2 Form Rollers
Printing Speed	1500-5000 IPH
Main Drive Motor	1 HP Single Phase
Compressor Pump Motor	1 HP Single Phase
